

Job Title:	Offshore Petroleum Environmental Inspector		
Department:	Natural Resources	Section:	Mineral Resources
Reports to:	Offshore Petroleum - Environmental Manager		
Grade:	Falkland Islands Government Grade - C	Job Code:	TBC
Overall Purpose of the Role			
The role of the Offshore Petroleum Environmental Inspector is diverse and involves all aspects associated with the regulatory inspection and enforcement of oil and gas environmental legislation in the Falkland Islands. Joining the Department of Mineral Resources (DMR) team, you'll provide expert input into the investigation and inspection of onshore and offshore petroleum installations situated in the Falkland Islands. The role involves responding to environmental incidents and regulatory non-compliance events and maintaining and participating in an effective 24/7 response capability. In an evolving and dynamic area for the Falkland Islands, you will also contribute to the development of industry guidance, standards and operational strategy. Capable of working under challenge and pressure, you will have the interpersonal skills needed to build robust relationships with internal and external stakeholders, and to influence organisational change to encourage, improve and enforce compliance with environmental regulation.			
Key Role Activities			
The post holder will be responsible for reviewing and assessing all submissions from an environmental perspective for offshore petroleum developments. This will include the review of (but is not limited to): • Operator submissions of environmental impact assessments including reviewing and ensuring any mitigation measures are being deployed; • Operator submissions of applications for geographical surveys for suitability; • Operator submissions of notifications for drilling and well interventions for suitability; • Operator submissions of notifications for drilling and well interventions for suitability; • Operator submissions of Decommissioning Plans for suitability; • All other relevant notifications associated with an operational petroleum development. The post holder will be also be required to: • Carry out inspections of on-shore and off-shore facilities and installations associated with the offshore petroleum industry to ensure environmental compliance including the identification of risks and regulatory non-compliances. • Undertake enforcement action as required for regulatory non-compliances; Participate in an on-call incident response rota and liaise with relevant stakeholders for any emergency response to an environmental, marine operation or aviation incident (ERMA);			

Job Title:	Offshore Petroleum – Environmental Inspector
Key Role Activities continued	
• Prepare technical reports and if required, providing expert evidence and acting in an expert witness capacity to any environmental related non-compliances or emergency response marine operation or aviation (ERMA) incident associated with the offshore petroleum industry; • Where environmental non-compliances or ERMA incidents have occurred, undertake root cause analysis to ensure that lessons are learned. This includes working collaboratively with relevant stakeholders to ensure any lessons learned are implemented as required; • Provide technical and expert guidance to colleagues, industry representatives, and other stakeholders on environmental matters related to the offshore petroleum industry; • Contribute to industry safety improvements by providing expert advice for the shaping and development of regulatory policy and legislation, including contributing to the development of associated regulations and codes of practice; • Contribute to the design and delivery of training programmes to ensure compliance against identified standards • Represent DMR on industry working groups and maintain effective liaison with other Government departments and non-government organisations on environmental issues; • Deputise for the Offshore Petroleum - Environmental Manager as required; <i>The job description is not an exclusive or exhaustive definition of your duties. You shall undertake such additional or other duties as may reasonably be required by FIG commensurate with your role and grade.</i>	
Additional Information	
This post will require strict adherence to confidentiality rules and protection of privacy within existing legislation. Shareholding in oil companies with licence interests in the Falkland Islands is not permitted.
